

## ***Reflections on Walking the Labyrinth***

***“A feeling of awe and respect permeated me as I walked the labyrinth. You enter with respect, you leave with grace.”***

***“Marvelous conception very well executed! There will be many walks over the years.”***

***“It was very soothing and relaxing. Very beautiful stones in it.”***

***“You have created a wonderful place for all – thanks for a great experience!”***

***“The revelation in the walking that the way in and the way out are part of the same journey.”***

***“The labyrinth walk today caused me to reflect on my journey of this past year. The walk represented what I have overcome recently. The finality of the walk represented a new beginning for me and represents hope and peace. The labyrinth is a reflection of your devotion and love for life. God Bless You.”***

***“In the past eighteen months my life has been blessed with new hope, faith, opportunities and experiences. My time spent here at Hidden Springs this summer has been a significant part of that experience. I wish you and your family and friends peace and health.”***

***“A very moving experience for all ... The music touched our souls!! Thank you for the experience and may all who walk here find peace and harmony.”***

***“As I walked through the labyrinth I used placement of my stone as an opportunity to process life. I did not want to choose a place too hastily, but did not want to let a missed opportunity go by. So I grabbed (with gusto) a spot near beautifully colored stones. Although it is not in the center, it is in a significant part of the labyrinth just as I remain in a significant part of your life. Thank you for the metaphorical experience.”***

***“Each turn offers a new perspective. I am aware of walking on my own shadow.”***

***“Look to my hopes, not my fears.”***

***“Magical, spiritual, loving. Wow. What a peaceful journey.”***

***“My heart overflows with all the universe holds for all of us.”***
